Dear Parents / Carers

The Nursery class is situated in the Olive Carr House, a purpose built Foundation Stage unit set in beautiful, leafy surroundings. The Nursery benefits from a large well resourced classroom and extensive and secure outdoor play areas.

Children are taught by enthusiastic, hardworking and well trained Early Years Practitioners. The children in the Nursery Class also benefit from having a fully qualified teacher, specialising in Early Years, teaching and managing them. The children benefit from small class sizes and excellent teacher/pupil ratios.

Our Nursery Class team create a fun, stimulating and caring environment for every child to explore, investigate and learn about the world around them. The Nursery children are provided with a broad range of learning experiences which develops inquisitive minds and a love of learning.

The learning experiences we provide cover the Department for Education and Skills Curriculum for the Early Years Foundation Stage.

There are six areas of learning within this curriculum:

- ▶ Personal, social and emotional development
- ▶ Communication, language and literacy
- ▶ Problem solving, reasoning and numeracy
- ▶ Knowledge and understanding of the world
- ▶ Physical development
- ▶ Creative development

We aim to provide a rich and stimulating curriculum as well as providing the children with the essential tools to become independent and confident learners.
